

## Description

This tab will provide you an overview of the element. It is splitted in 3 rows.

- **Output** : displays the return of the last check on the element.
- **Checks** :
  - Total count of attached checks to the element.
  - Buttons that shows the repartition of checks per status
- **Host templates** :
  - The list of host templates attached to this element (only for host)

The screenshot shows a monitoring interface with a sidebar on the left containing navigation tabs: Summary (selected), Manage, Checks, Dependency Graph, Historic, and Graphics. The main content area is divided into three sections: 'Output' showing 'PING OK - Packet loss = 0%, RTA = 0.03 ms', 'Checks: 13' with a status bar showing 1 Critical (red), 0 Warning (yellow), 1 Unknown (grey), and 11 OK (green), and 'Host templates:' showing a 'Shinken Template' button.

## Usage

### View the list of checks in a specific state

- Click on the chosen status button in the checks row to open the [Checks Tab](#).
- The list of checks will be automatically filtered with the chosen status.

Checks: 13

Critical 1

### View the list of host using the same template

- Click on the chosen template to open the [List ALL](#), automatically filtered on host containing this template

Host templates :

apache http generic-host
