

Widget Webpage

Description

This widget includes a web page in your dashboard.

It might be useful to display

- a wiki page to show a procedure (people to inform,...) in case of an issue
- or the documentation of a host or a software.
- ...

Configuration

1. Type the URL of the page to load in widget.
 - You can clean the field by clicking on the swipe icon (1).
2. When configured, press the SUBMIT button (2).
