

Overview

Cette liste présente les éléments nécessitant d'être réglés.

The screenshot shows the Shinken Enterprise monitoring interface. The top navigation bar includes the Shinken logo, a home button, and tabs for 'Home', 'Lists', and 'Wall'. A user profile 'admin' is visible in the top right. Below the navigation is a search bar and filter options for 'Host Name', 'Check Name', 'Priority', 'Tags', 'Managed By', 'Context', and 'Status'. The main content area is a table with the following columns: Icon, Type, Host, Check, Priority, Tags, Managed By, Context, Status, and Output. The table lists various hosts and checks, many of which are in a 'DOWN' or 'CRITICAL' state. For example, 'srv-oracle-1' is DOWN, 'srv-apache-1' is DOWN, and several 'srv-mongo' checks are CRITICAL. The 'srv-mongo-1' check for 'Mongodb-last-flush' is also marked as 'FLAPPING'.
