Overview

This list displays elements that need to be fixed.

The screenshot shows the Shinken web interface. At the top, there's a navigation bar with 'Shinken Enterprise' logo, a search icon, and tabs for 'Hive', 'Lists', and 'Wall'. The 'Lists' tab is active. Below the navigation bar, there's a table with columns: Icon, Type, Host, Check, Priority, Tags, Managed By, Context, Status, and Output. The table lists various hosts and checks, including 'srv-oracle-1', 'srv-apache-1', 'ForTestOnly', 'srv-dba2', 'srv-dba3', 'srv-dba4', 'nginx-1', 'nginx-2', 'shinken-server', 'srv-dba1', 'srv-http-1', 'srv-http-2', 'srv-http-3', 'srv-mongo-1', and 'srv-mongo-2'. The status column shows 'DOWN' for several items and 'CRITICAL' for others. The output column provides details for each status, such as 'check_icmp: Failed to resolve' or 'check_icmp: Failed to resolve ForTestOnly'.
